I am Gerber Colindres, a Systems Engineer and software developer with over 7 years of programming experience and 3 years of professional experience working with technologies such as Next.js, NestJS, MySQL, and C#. I am passionate about technology and web development, and I am constantly seeking new challenges that allow me to grow both technically and professionally.

PROFESSIONAL EXPERIENCE

Intelibis   **Guatemala, Guatemala**
Dynamics Developer   *March 2024 – Present*

- I developed custom reports in SSRS for multiple clients using data from Microsoft Dynamics CRM, improving the visualization and analysis of operational data.
- Integrated JavaScript scripts into Dynamics forms to extend specific functionalities according to each client's needs.
- Implemented plugins in C# to automate internal processes within the CRM, reducing response times and minimizing errors in repetitive tasks.
- Designed and managed workflows with Power Automate, successfully automating communication between various business services.
- Assisted in migrating CRM data to a SQL Server database, contributing to the data structure and ensuring data integrity for future analysis.
- Developed a mobile application in .NET MAUI for tracking employee check-ins and check-outs, integrating geolocation features and synchronization with internal systems.

Recurso Humano Externo   **Guatemala, Guatemala**
Software Developer Jr.   *July 2022 – March 2024*

- I developed intuitive and responsive user interfaces using Next.js (JavaScript) and Material UI, enhancing user interaction on personnel management platforms.
- Implemented MySQL queries to extract and display relevant data on the frontend, optimizing system efficiency during its early stages.
- Gradually improved my technical skills by participating in the migration of the project to more modern technologies such as TypeScript and NestJS, strengthening the overall system architecture.
- Designed and integrated backend services in NestJS with MongoDB for key functionalities including:
  - Management and creation of employee payrolls
  - Generation of personalized employment contracts
  - Updates to salaries and administrative data

EDUCATION

UNIVERSIDAD DE SAN CARLOS DE GUATEMALA   **Guatemala, Guatemala**
Bachelor's Degree in Computer Science and Systems Engineering   *April 2025*

ADDITIONAL SKILLS

- Casual conversational English (intermediate level)
- I develop projects as a freelancer in my free time. https://portfolio-nine-rust-62.vercel.app/
